Dear Megan

Thank you for this opportunity to express my support for the work of your Association. If elected, I would be happy to work with you and the Council to:

- 1 & 2. Complete the path between Tomakin and the shops and address the road safety risks. I have actively supported cycleways and shared pathways in various areas in southern NSW. I believe these provide value on many levels and therefore would be keen to support working with Council to find solutions to overcome the delays in completion of this work.
3. Explore better beach access options. As a coastal geomorphologist, I understand the need for well designed access to the beach that concurrently maximises ease of access (including wheelchair access) and minimises potential for erosion. I would support you in working with Council to find a solution that achieves this balance.
4. Explore and implement options for improved amenities.

In addition, I would be happy to advocate on your behalf to the Sports and Regional Ministers to deliver sporting equipment for the local youth.

Kind regards

Fiona

Dr Fiona Kotvojs

Liberal Candidate for Bega
