

I'm Dr Michael Holland and I'm the Labor candidate in the Bega by-election. I have lived in the Bega electorate for close to two decades, currently residing in Turlinjah.

I have worked as an obstetrician and gynaecologist for four decades and have served local families on the South Coast as senior specialist at the Moruya and Batemans Bay hospitals for 19 years.

Caring for my patients I have seen the importance of living in strong communities for their health outcomes.

The electorate of Bega is made up of so many beautiful villages like Tomakin, and if elected I will be doing everything I can to work with local community members and groups to make sure they are the best places to live they can be.

I strongly support the work of the Tomakin Community Association and if elected want to work with you to be a voice for the fantastic projects you're putting forward.

This includes working with local council and advocating strongly in support of projects that improve and ensure safe access to beaches, parks and local facilities for all members of our community.
